## Bozeman Honors Montana Governor

In a ceremony held at his firm's downtown Bozeman, Montana, headquarters, Bozeman Watch Company CEO Christopher Wardle presented Doug Houston, of the National Smokejumper Association, with a check on behalf of Montana Governor Brian Schweitzer.

The funding will directly support the work of the Smokejumpers, an elite corps of firefighters who parachute into the heart of wildfires and extinguish them before they can spread very far.

The firm also announced that it will release a new watch, the Zuli Chronograph, in 2008, in homage to Doug Houston's home base of Missoula, Montana. The addition of the new piece will bring Bozeman Watch Company's Montana Class collection of watches to eleven models.
